About Hunt Global Resources, Inc.:

Hunt Global Resources, Inc. (OTCBB: HGCO) is a natural resource company focusing on specialty sands called "frac" sand, which is an essential component in the production of oil and gas. The Company's current holdings include the mining rights to 350 acres in Conroe Texas, containing high-grade sand deposits. The site contains approximately 21 million tons, of high value frac-sand. The Company's holdings include a state-of-the-art 40 million gallon industrial Biofuels manufacturing plant located near the Houston ship channel. The Company plans to utilize the plant's excess resources and capacity to support a frac-sand resin coating operation which will boost the value of its frac-sand holdings. Additionally, Hunt has recently acquired Carbon Green NA, which is the only patented tire recycling process that recycles 100% of the components of scrap tires with a zero carbon footprint. Hunt has license agreements to distribute the technology in Europe, China and South America. Hunt plans to build up to 10 plants in North America.
